

## SIFF SCHOLARS – A PHOTO JOURNAL

In the last six years that I was part of starting and running this scholarship program, there were countless moments of learning, gathering and growing. Some of them are captured here.

The first batch of SIFF scholars at the orientation in when they were enrolled in Grade 6. From L to R Dinesh, Deepak, Kishen, Hemanth MG and Hemanth G.

Our SIFF Panthers girls playing in the Football league that gave them much confidence and kept them fit. Sripriya makes a run with the ball while Thulasi is close behind her.

Abhi and Deekshith use laptops and learn programming as they prepare to become tech savvy.

The scholars met with distinguished visitors from different walks of life. Seen here with Shaheen Mistry, founder of Teach for India.

Art and puppetry workshops – always a big hit with the students

Discussions, debates and group work made for lively classrooms

Dilruba immersed in reading at our centre library full of interesting books

The full team of students and teachers outside the Learning centre
